

Tafhimul Islam

Email: tafhimul301@gmail.com

Location: Bashar Market, Muradpur, Panchlaish, Chattogram

Career Objective

Passionate and detail-oriented aspiring software engineer seeking to apply strong skills in Node.js, TypeScript, and database management to contribute to innovative projects at Digiden IT. Eager to learn, grow, and deliver high-quality software solutions through a 6-month internship.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, Node.js, Express.js, React.js, HTML, CSS

Databases: MongoDB, PostgreSQL, SQL

Tools & Platforms: Git, GitHub, REST APIs, JWT Authentication, MVC/MVP Architecture

Other Skills: Problem-solving, API design, CRUD operations, role-based access control

Relevant Projects

Digital Wallet Backend

Secure, modular backend API for a role-based digital wallet system. Features wallet & transaction logic, tracking successful and unsuccessful transactions, JWT authentication, and Mongoose-based database modeling.

GitHub: <https://github.com/Tafhim301/Digital-Wallet-Backend>

Library Management System (Full-stack)

A TypeScript-based library management platform with CRUD for books, borrow/return functionality, borrow summaries, and Redux Toolkit Query integration for efficient state management.

GitHub: Backend: https://github.com/Tafhim301/Library_Management_Backend | Frontend: <https://github.com/Tafhim301/Library-Management-Frontend>

PH Tour Management Backend

Comprehensive tour booking backend with payment gateway integration, aggregation pipelines, role-based access, and booking status tracking.

GitHub: https://github.com/Tafhim301/PH_Tour_Management-Backend

Medicare App (Full-stack)

Healthcare appointment system with patient/doctor roles, authentication, and secure data handling.

GitHub: Backend: <https://github.com/Tafhim301/Medicare-server> / Frontend: <https://github.com/Tafhim301/Medicare-client>

Education

Currently pursuing Higher Secondary Certificate (HSC) – Class 11

Strengths

- Strong backend development skills with Node.js & TypeScript
- Good understanding of relational & non-relational databases
- Quick learner with hands-on project experience
- Committed to writing clean, maintainable, and efficient code
